## 29 CFR Parts 2619 and 2676

### Valuation of Plan Benefits in Single-Employer Plans; Valuation of Plan Benefits and Plan Assets Following Mass Withdrawal; Amendments Adopting Additional PBGC Rates

**AGENCY:** Pension Benefit Guaranty Corporation.

**ACTION:** Final rule.

**SUMMARY:** This final rule amends the Pension Benefit Guaranty Corporation's regulations on Valuation of Plan

Benefits in Single-Employer Plans and Valuation of Plan Benefits and Plan Assets Following Mass Withdrawal. The former regulation contains the interest assumptions that the PBGC uses to value benefits under terminating single-employer plans. The latter regulation contains the interest assumptions for valuations of multiemployer plans that have undergone mass withdrawal. The amendments set out in this final rule adopt the interest assumptions applicable to single-employer plans with termination dates in August 1995, and to multiemployer plans with valuation dates in August 1995. The effect of these amendments is to advise the public of the adoption of these assumptions.

**EFFECTIVE DATE:** August 1, 1995.

**SUPPLEMENTARY INFORMATION:** This rule adopts the August 1995 interest assumptions to be used under the Pension Benefit Guaranty Corporation's regulations on Valuation of Plan Benefits in Single-Employer Plans (29 CFR part 2619, the “single-employer regulation”) and Valuation of Plan Benefits and Plan Assets Following Mass Withdrawal (29 CFR part 2676, the “multiemployer regulation”).

Part 2619 sets forth the methods for valuing plan benefits of terminating single-employer plans covered under title IV of the Employee Retirement Income Security Act of 1974, as amended. Under ERISA section 4041(c), all single-employer plans wishing to terminate in a distress termination must value guaranteed benefits and “benefit liabilities,” i.e., all benefits provided under the plan as of the plan termination date, using the formulas set forth in part 2619, subpart C. (Plans terminating in a standard termination may, for purposes of the Standard Termination Notice filed with PBGC, use these formulas to value benefit liabilities, although this is not required.) In addition, when the PBGC terminates an underfunded plan involuntarily pursuant to ERISA section 4042(a), it uses the subpart C formulas to determine the amount of the plan's underfunding. Part 2676 prescribes rules for valuing benefits and certain assets of multiemployer plans under sections 4219(c)(1)(D) and 4281(b) of ERISA.

Appendix B to part 2619 sets forth the interest rates and factors under the

single-employer regulation. Appendix B to part 2676 sets forth the interest rates and factors under the multiemployer regulation. Because these rates and factors are intended to reflect current conditions in the financial and annuity markets, it is necessary to update the rates and factors periodically.

The PBGC issues two sets of interest rates and factors, one set to be used for the valuation of benefits to be paid as annuities and one set for the valuation of benefits to be paid as lump sums. The same assumptions apply to terminating single-employer plans and to multiemployer plans that have undergone a mass withdrawal. This amendment adds to appendix B to parts 2619 and 2676 sets of interest rates and factors for valuing benefits in single-employer plans that have termination dates during August 1995 and multiemployer plans that have undergone mass withdrawal and have valuation dates during August 1995.

For annuity benefits, the interest rates will be 6.20% for the first 20 years following the valuation date and 5.75% thereafter. For benefits to be paid as lump sums, the interest assumptions to be used by the PBGC will be 4.75% for the period during which benefits are in pay status and 4.00% during the period preceding the benefit's placement in pay status. The above annuity interest assumptions represent a decrease (from those in effect for July 1995) of .10 percent for the first 20 years following the valuation date and are otherwise unchanged. The lump sum interest assumptions are unchanged (from those in effect for July 1995).

Generally, the interest rates and factors under these regulations are in effect for at least one month. However, the PBGC publishes its interest assumptions each month regardless of whether they represent a change from the previous month's assumptions. The assumptions normally will be published in the **Federal Register** by the 15th of the preceding month or as close to that date as circumstances permit.

The PBGC has determined that notice and public comment on these amendments are impracticable and contrary to the public interest. This finding is based on the need to determine and issue new interest rates and factors promptly so that the rates and factors can reflect, as accurately as possible, current market conditions.

Because of the need to provide immediate guidance for the valuation of benefits in single-employer plans whose termination dates fall during August 1995, and in multiemployer plans that have undergone mass withdrawal and have valuation dates during August

1995, the PBGC finds that good cause exists for making the rates and factors set forth in this amendment effective less than 30 days after publication.

The PBGC has determined that this action is not a "significant regulatory action" under the criteria set forth in Executive Order 12866, because it will not have an annual effect on the economy of \$100 million or more or adversely affect in a material way the economy, a sector of the economy, productivity, competition, jobs, the environment, public health or safety, or State, local, or tribal governments or communities; create a serious inconsistency or otherwise interfere with an action taken or planned by another agency; materially alter the budgetary impact of entitlements, grants, user fees, or loan programs or the rights and obligations of recipients thereof; or raise novel legal or policy issues arising out of legal mandates, the President's priorities, or the principles set forth in Executive Order 12866.

Because no general notice of proposed rulemaking is required for this amendment, the Regulatory Flexibility Act of 1980 does not apply. See 5 U.S.C. 601(2).

## Appendix B to Part 2619—Interest Rates Used to Value Lump Sums and Annuities

### Lump Sum Valuations

In determining the value of interest factors of the form  $v^{0:n}$  (as defined in § 2619.49(b)(1))

for purposes of applying the formulas set forth in § 2619.49 (b) through (i) and in determining the value of any interest factor used in valuing benefits under this subpart to be paid as lump sums (including the return of accumulated employee contributions upon death), the PBGC shall employ the values of  $i_t$  set out in Table I hereof as follows:

(1) For benefits for which the participant or beneficiary is entitled to be in pay status on the valuation date, the immediate annuity rate shall apply.

(2) For benefits for which the deferral period is  $y$  years ( $y$  is an integer and  $0 < y \leq n_1$ ), interest rate  $i_1$  shall apply from the valuation date for a period of  $y$  years; thereafter the immediate annuity rate shall apply.

(3) For benefits for which the deferral period is  $y$  years ( $y$  is an integer and  $n_1 < y \leq n_1 + n_2$ ), interest rate  $i_2$  shall apply from the valuation date for a period of  $y - n_1$  years; interest rate  $i_1$  shall apply for the following  $n_1$  years; thereafter the immediate annuity rate shall apply.

(4) For benefits for which the deferral period is  $y$  years ( $y$  is an integer and  $y > n_1 + n_2$ ), interest rate  $i_3$  shall apply from the valuation date for a period of  $y - n_1 - n_2$  years; interest rate  $i_2$  shall apply for the following  $n_2$  years; interest rate  $i_1$  shall apply for the following  $n_1$  years; thereafter the immediate annuity rate shall apply.

### Annuity valuations

In determining the value of interest factors of the form  $v^{0:n}$  (as defined in § 2619.49(b)(1)) for purposes of applying the formulas set forth in § 2619.49 (b) through (i) and in determining the value of any interest factor

used in valuing annuity benefits under this subpart, the plan administrator shall use the value of  $i_t$  prescribed in Table II hereof.

The following table tabulates, for each calendar month of valuation ending after the effective date of this part, the interest rates (denoted by  $i_1, i_2, *$ , and referred to

generally as  $i_t$ ) assumed to be in effect between specified anniversaries of a valuation date that occurs within that calendar month; those anniversaries are specified in the columns adjacent to the rates. The last listed rate is assumed to be in effect after the last listed anniversary date.

introductory text of both tables is republished for the convenience of the reader and remains unchanged.

## Appendix B to Part 2676—Interest Rates Used to Value Lump Sums and Annuities

### Lump Sum Valuations

The interest rates set forth in Table I shall be used by the PBGC to calculate benefits payable as lump sum benefits as follows:

(1) For benefits for which the participant or beneficiary is entitled to be in pay status on the valuation date, the immediate annuity rate shall apply.

(2) For benefits for which the deferral period is  $y$  years ( $y$  is an integer and  $0 < y \leq n_1$ ), interest rate  $i_1$  shall apply from the valuation date for a period of  $y$  years; thereafter the immediate annuity rate shall apply.

(3) For benefits for which the deferral period is  $y$  years ( $y$  is an integer and

$n_1 < y \leq n_1 + n_2$ ), interest rate  $i_2$  shall apply from the valuation date for a period of  $y - n_1$  years; interest rate  $i_1$  shall apply for the following  $n_1$  years; thereafter the immediate annuity rate shall apply.

(4) For benefits for which the deferral period is  $y$  years ( $y$  is an integer and  $y > n_1 + n_2$ ), interest rate  $i_3$  shall apply from the valuation date for a period of  $y - n_1 - n_2$  years; interest rate  $i_1$  shall apply for the following  $n_2$  years; interest rate  $i_1$  shall apply for the following  $n_2$  years; thereafter the immediate annuity rate shall apply.

## 29 CFR Part 2644

### Notice and Collection of Withdrawal Liability; Adoption of New Interest Rate

**AGENCY:** Pension Benefit Guaranty Corporation.

**ACTION:** Final rule.

**SUMMARY:** This is an amendment to the Pension Benefit Guaranty Corporation's regulation on Notice and Collection of Withdrawal Liability. That regulation incorporates certain interest rates published by another Federal agency. This amendment adds to the appendix

of that regulation a new interest rate to be effective from July 1, 1995, to September 30, 1995. The effect of the amendment is to advise the public of the new rate.

**EFFECTIVE DATE:** July 1, 1995.

**SUPPLEMENTARY INFORMATION:** Under section 4219(c) of the Employee Retirement Income Security Act of 1974, as amended, the Pension Benefit Guaranty Corporation promulgated a final regulation on Notice and Collection of Withdrawal Liability. That regulation, codified at 29 CFR part 2644, deals with the rate of interest to be

charged by multiemployer pension plans on withdrawal liability payments that are overdue or in default, or to be credited by plans on overpayments of withdrawal liability. The regulation allows plans to set rates, subject to certain restrictions. Where a plan does not set the interest rate, § 2644.3(b) of the regulation provides that the rate to be charged or credited for any calendar quarter is the average quoted prime rate on short-term commercial loans for the fifteenth day (or the next business day if the fifteenth day is not a business day) of the month preceding the beginning of the quarter, as reported by the Board of Governors of the Federal Reserve System in Statistical Release H. 15 ("Selected Interest Rates").

Because the regulation incorporates interest rates published in Statistical Release H.15, that release is the authoritative source for the rates that are to be applied under the regulation. As
